### COMMUNITY OUTREACH SERVICES

Due to lack for funds, the Centre was not able to carry out any community outreach programme.

### CHALLENGES OF THE HEALTH CENTRE

The patients number dropped drastically

The few patients fail to meet the costs

The director has thus been too strained to finance the Centre at personal resources

## FUTURE PLANS OF THE HEALTH CENTRE

- We plan to write some proposals to national and international agencies to solicit funds to run the programmes of the Centre. Among the planned proposals are:
- Hold an annual health camp for women in reproductive age. This requires inviting medical doctors and social workers to offer medical services i.e. medical check-up for cervical cancer, breast cancer, HIV/AIDs, sexually transmitted diseases, and training family planning services for one week.
- Hold an annual health camp for children. This will involve treatment of ailments, testing of diseases, immunization, teaching parents about nutrition, childcare and home care and sanitation for one week
- Hold an annual youth camp. This will involve voluntary testing and counseling other/AIDs, Sexually transmitted diseases and training in behavioral change for one week.
- Request medical volunteer to help in providing labour and fundraising for the Centre.

Yours in Service,

Dr. Tabitha Naisiko
